

Appendix 35

1. THE EVENT.

The event is an open Endurance Trial, held under the International sporting Code of the FIA, the General Competition Rules of Motorsport Ireland (MI), these supplementary regulations and any final instructions issued before the start of the event. Final instructions may not contradict / over-rule any of the above, they may only clarify / expand particularly if there is a situation unique to an event.

2. ENTRIES.

2.1. Only fully completed entry forms will be accepted. No telephone, late or unpaid entries will be accepted.

2.2. The number of entries is limited to 70.

3. ROUTE.

Competitors will be required to travel between selectives (as defined below) over sections of public road, on which the provisions of the Road Safety Acts apply.

3.1. There will be no competitive navigation sections on roads open to the public.

3.2. The competitive section of the event will take place over Selectives held on private ground. Selectives are sections of the route, timed to the second, on which the competitors are required to navigate at an average 50 kph (32 mph). The location of the Selectives and the route through them will not be made available to competitors until the start of the event.

*Selectives **may** will include:*

a) Passage controls, where the competitor has to stop to collect marshal's signature.

b) Code Boards, where the competitor has to stop to record information displayed on a board.

*In addition, the following **may must** be included on selectives to prevent excessive speed and to increase the element of driving skill required:*

I) Artificial chicanes, comprising two or more elements.

II) Cones.

III) Boxes, where the competitor is required to come to complete halt before proceeding again.

*(Cones, boxes and chicanes are **recommended to be used** on long straights, to keep the speed down or to slow the cars before any unduly hazardous obstacle).*

IV) The maximum distance allowed between speed reduction measures on a straight is 350 metres +/- 50m.

3.3. The required average speed for any section of the route, including Selectives will not exceed 50 kph (32 mph). Selectives will have a minimum and maximum time.

3.4. Competitors recording a time equal to or less than the minimum (target time) required by the 50 kph average will be given the target time, which will incur no penalties but will gain no advantage.

3.5. Competitors recording a time greater than the target time but less than the maximum time will be given a penalty in seconds in excess of the target time.

3.6. Competitors recording a time greater than the maximum time will be given the maximum penalty in seconds for that Selective, i.e. the difference between the target time and the maximum time. The maximum time will be based on an average speed of 30 kph.

3.7. Tulip diagrams of the route will be provided by the Organisers.

3.8. A minimum additional time allowance of 10 minutes will be given, in addition to the 50 kph average, between the first Control and the start of the first Selective.

3.9. Organisers may use only 1:50,000 maps when setting out route card but competitors have the option of using other maps during the event (it is not envisaged that competitors will need maps, although they will be free to use them).

3.10. There will be Controls, Time Points, Passage Controls and Vias through which the competitor must pass in the order in which they appear on the Time Card.

3.11. Any map displayed by the organisers at the start venue should indicate the entire route.

3.12. A refuelling halt is to be provided for any event over 136 km (85 miles).

3.13. Organising clubs should ensure that the route is timed in such a way as to allow extra time where competitors are likely to be delayed, for example by heavy traffic or at level crossings, so that they do not have to drive at excessive speed on open roads.

4. ELIGIBILITY.

4.1. Standard road going vehicles only, but not commercial vehicles, will be eligible. It is the responsibility of the driver (not the scrutineer) to ensure that the vehicle complies in all respects with the Road Traffic Acts. Limited safety modifications are permitted as outlined in Art. 21. Turbo and four-wheel drive vehicles are ineligible.

4.2. All nominated drivers must hold a valid FIA Driver's Competition Licence and all navigators must hold a valid Driver's or Navigator's Competition Licence, which must be presented for inspection at the start of the event. The nominated driver must hold a current RTA Driver's Licence.

4.3. For Technical Specification of Endurance Cars, please see Articles 27.1-27.35.

4.4. All other cars will be to Navigation Trial or Retro Trial specification.

5. PERSONNEL.

5.1. Each competing car shall carry only two persons, one being the nominated driver and the other being the nominated navigator. The nominated driver must drive throughout the event.

6. INSURANCE.

6.1. Driver must possess valid Road Traffic Act Insurance covering their driving on the event (GCR No. 78) or

6.2. Drivers must possess a valid letter of acceptance from the insurers of the Irish Rally

Drivers Scheme or BRDS equivalent.

7. INDEMNIFICATION.

7.1. Both driver and navigator must sign an INDEMNIFICATION clause on the entry form and may be required to sign a further INDEMNIFICATION form at the start of the event.

8. TIMING.

8.1. Timing will be by marshals' watches. On Selectives, timing will be to the second. On the remainder of the route timing will be to the previous elapsed minute.

8.2. The Chef Marshal / Clerk of the Course must ensure that all marshals set their watches to the event time.

8.3. The maximum average speed required between any two consecutive timed points will be no more than 50 kph (32 mph), including Selectives.

8.4. Where a competitor is deemed not to have followed the intended route, e.g. not visiting consecutive timed points (or missing a Selective) they can subsequently rejoin the intended route without incurring penalty for early arrival, unless they check in before their original due time.

8.5. On events with a mid-point halt or rest halts, competitors can make back any lateness and leave on their original scheduled departure time without incurring any penalty.

9. ROUTE.

9.1. Each competitor will be issued with a Tulip Road Book for the entire event (including selectives) at the start of the event. This will be issued at least 75 minutes before their due start time.

9.2. An official who is familiar with the route must be available at the start until the last competitor has left the start control.

10. TIME CARDS.

10.1. A minimum of two emergency telephone numbers, one of which must be a landline, must be printed on all time cards.

10.2. Time cards will be issued with the route cards. The onus is on the competitor to ensure that each time card is fully completed by the marshal and that all entries on the card are legible and authentic. Non-compliance may result in penalties (e.g. competitors may be deemed not to have visited a designated point). Clubs must issue clarification with final instructions as to whether competitors' time cards or marshals' sheets will take precedence in the event of a dispute. Where no clarification is issued, competitors' time cards will take precedence (except for instances where it is not possible for a judge of fact to record an infringement on the competitor's card, such as wrong departure or double visit).

10.3. Times of arrival at Controls and Timed Points must be recorded on the Time Cards by the marshals.

10.4. No time will be recorded on vias, or passage controls on selectives.

10.5. Noise fails will be recorded on the timecards by the marshals.

10.6. A Stop / Yield sign marshal must sign the time cards of each competitor in the space specified if they pass through the junction, indicating clearly whether or not they are being penalised.

11. MARSHALS.

11.1. Marshals, including Stop Sign Marshals, will be the sole judge of fact.

11.2. Any competitor reported to the Clerk of the Course by a marshal as being abusive, discourteous or uncooperative will be excluded from the event.

11.3. All official cars at Controls, Time Points, Passage Controls and Vias must be clearly identifiable. Marshal identification boards should be used.

12. NUMBERS.

12.1. Competitors must display numbers as supplied by the Organisers, on both rear windows.

13. FORCE MAJEURE.

Force Majeure will apply to everything that is beyond the Organisers control and will not be considered once a car has started the event. In the event of force majeure, the Organisers will make no alteration to penalties incurred by competitors. If a point is subsequently 'scrubbed' because of an incorrect route instruction on the part of the Organisers, no time penalty will be incurred at the next timed point but accumulated time penalties will be carried. Distances shown by the Organisers are deemed to be correct.

14. STOP SIGNS.

14.1. The Clerk of the Course MUST man ~~at least three~~ one stop or yield sign during the event, using a senior experienced marshal. This rule is to be implemented regardless of the number of marshals available to the Organisers.

14.2. Competitors must stop, i.e. all forward motion must cease, at the point of entry to any road protected by a Stop, Yield, Stad or Geill Sli sign, whether a vertical sign or road marking.

14.3. Any such sign which is manned must be CLEARLY visible to competitors from the correct direction of travel.

14.4. Before the start of an event, the means of identification (e.g. board, jacket etc.) of a Stop Sign Marshal must be shown to competitors by the Organisers.

14.5. The onus is on the competitor to stop at a Stop Sign Marshal for the purpose of receiving a signature in the specified place on his / her time card if requested.

14.6. The penalty for not stopping at an identifiable Stop Sign Marshal shall be 300 seconds.

14.7. Stop Sign Marshals may move from point to point along the route at his / her own discretion but they must be present during the whole period when competitors may pass through the junction where the sign is located.

15. CLASSES.

15.1. The entry will be divided into five classes as follows:

- a) Cars built to Endurance specification (for details see below,**
- b) Navigation Trial cars up to 1400cc,**
- c) Navigation Trial cars from 1401 to 2000cc,**
- d) Front Wheel Retro type cars (retro cars as defined in appendix 33),**
- e) Rear Wheel Retro type cars (retro cars as defined in appendix 33).**

16. SELECTIVES.

16.1. A number of Selectives will be included in the route; they will be held on private ground.

16.2. Competitors will start Selectives at one minute intervals, unless instructed otherwise by the Organisers. Competitors will be given a countdown by the Selective Start Marshal.

16.3. The route through the Selective will be defined by Tulip Diagrams and / ~~or~~ any other means deemed necessary by the Organisers.

16.4. It is the competitor's responsibility to follow the correct route.

16.5. Apart from time penalties, penalties will also be incurred if the competitor strikes a cone, passes the wrong side of a cone, fails to negotiate a chicane as directed, fails to stop at a passage control or stop box or fails to correctly record a code board on their time card. Code information must be recorded on the time card at the point where the board is located. Missing code board information at the next manned point on the Selective or at the end of the Selective will be penalised.

16.6. At the end of the Selective, competitors must stop astride the finish line and then immediately move forward to receive a time from the **Finish Marshal. More detailed instructions regarding finish line procedure may be given in Final Instructions.**

16.7. Failure to attempt a Selective, failure to complete a Selective or failure to follow the correct route through a Selective will incur the maximum penalty for that Selective.

16.8. At their discretion, Organisers may set out further penalties on certain Selectives, e.g. where leaving the road / cutting corners might cause damage to private property.

16.9. To be classified as a finisher, competitors must start at least one third of the Selectives; this is to encourage beginners by making it easier for them to finish the event.

17. DRIVING AND NOISE.

17.1. Driving in a manner which would bring the Motor Club and Motorsport into disrepute will result in exclusion. Strict observance of the law is required of each competitor and any car associated with the competitor.

Competitors are reminded that the Clerk of the Course must enforce compliance with this rule.

17.2. Competitors suffering an exhaust failure must retire from the event immediately.

17.3. Any marshal considering a competing vehicle to be too noisy should fail the vehicle at that particular timed point, via or passage control by noting on the time card.

17.4. Any competitor receiving three Noise Fails is automatically excluded and must retire from the event immediately. A competitor who is excluded in this manner from more than one event during a season may be subject to further penalty.

17.5. A Drivers' Briefing must be held prior to the start of the event. Clerk of the Course must highlight driving standards, compliance with the RTA, cautions and PR sensitive areas.

18. SERVICING.

18.1. No service / chase cars are allowed.

18.2. Cars may be worked on only by the crew themselves, other competitors, garages en route, motoring assistance organisations or assistance provided by the Organisers.

Competitors are responsible for the cost of any work done.

18.3. Any tools / materials used to repair a car must be carried in the car or be provided by other competitors or purchased en route.

18.4. The Organisers, at their discretion, may arrange limited mechanical assistance at rest halts and may also arrange a Mechanical Assistance Vehicle to follow the last car through the route.

19. PENALTIES.

19.1. Per minute late at a Control or Time Point - 10 seconds per minute

19.2. Early arrival at a Control or Time Point (excluding Start Control, first Control / Time Point after rest halt, at their discretion, the organisers may waive penalties for early arrival at the final control) - 20 seconds per minute

19.3. Where a previous timed point/via is missed or an incorrect departure at previous point / via or an incorrect approach at timed point in question, competitors can rejoin the route without incurring penalties for early arrival, unless they arrive before their original due arrival time, in which case article 19.2 will apply. (In other words, a competitor who is running very late can cut out some of the route and get back on time without incurring penalties, as long as they don't check in before their original due time at the point).

19.4. At subsequent timed points where competitors arrive before their original due time, (after 19.3) without exceeding the 50 kph average, per minute early - 20 seconds per minute.

19.5. Over 15 minutes late at or missing a Time Point - 50 seconds.

19.6. Over 30 minutes late at or missing a Control - Exclusion.

19.7. Wrong approach or departure at a Time Point/Control - 50 seconds.

19.8. Wrong approach and wrong departure at a Control or Time Point - 200 seconds.

19.9. Traversing a Control/Time Point/Via more than once (where not required to do so by the route instructions) - 150 seconds.

**19.10. Failure to stop at Stop/Yield signs, first offence - 300 seconds
second offence - exclusion.**

19.11. Failure to stop at identifiable Stop Sign Marshal or other judge of fact - 300 marks.

**19.12. Visiting an Out of Bounds area, each offence – ~~30~~ 100 seconds.
Second offence - Exclusion.**

19.13. Altering a time card - Exclusion.

19.14. Interfering with another competitor's time card - Exclusion.

19.15. Failure to complete the entire event under own power (with the exception that vehicles that have left to route may receive assistance to regain the route or vehicles blocking the route may receive assistance for the minimum distance necessary to clear the route) - Exclusion

19.16. Failure to pass scrutiny at any time - Exclusion.

19.17. Passing a 'NO' board - 300 seconds.

19.18. Use of any kind of Satellite Navigation System - Exclusion .

19.19. Taking less than target time for a Selective - No penalty.

19.20. Taking more than target time but less than maximum time for a selective - 1 second per second in excess of the target time.

19.21. Taking more than the maximum time for the Selective - the penalty will be the difference between the target time and the maximum time for the Selective in seconds.

19.22. Failure to attempt or complete the Selective - the maximum penalty for the Selective will apply.

19.23. Jumping the start of a Selective - 60 seconds.

- 19.24. Striking/passing wrong side of a cone - 10 seconds.**
- 19.25. Striking, missing or failure to negotiate a chicane as instructed - 10 seconds.**
- 19.26. Failure to collect a signature at a Passage Control - 60 seconds.**
- 19.27. Failure to correctly record code board information - 60 seconds.**
- 19.28. Failure to come to a complete halt in a Stop Box - 20 seconds.**
- 19.29. Failure to stop astride the finishing line of a Selective - 20 seconds.**
- 19.30. Travelling in the reverse direction on a Selective - Exclusion.**
- 19.31. Ties will be decided by the lowest penalty (in seconds) on the first selective. If this fails to resolve the tie, the penalty on each successive Selective will be used until the tie is broken.**
- 19.32. Driving in a manner likely to bring motorsport or the organising club into disrepute - Exclusion.**
- 19.33. Reconnoitering Selectives or possession of any kind of pace notes - Exclusion.**
- 19.34 Failure to wear a helmet on a selective (where required by the regulations), each offence – 200 seconds**
- 19.35 Wearing of helmets on public highway, each offence – 200 seconds**

20. AWARDS.

- 20.1. First, second and third crews overall - two trophies.**
Only those cars entered the Endurance Class will be eligible for the Overall Awards.
- 20.2. First, second and third in each class (depending on entries) - two trophies.**
- 20.3. Those receiving awards for overall placings will not be eligible for class awards, i.e. there will be no separate class awards for Endurance cars.**
- 20.4. Additional awards, including beginner's award, may be given as per supplementary regulations. A beginner is a driver who has not competed in more than two endurance trials, retro trials or night navigation trials combined.**

21. SCRUTINY.

- 21.1. All vehicles must be examined for compliance with regulations before he start.**
- 21.2. All vehicles must carry a luminous red triangle.**
- 21.3. Fire extinguishers are recommended.**
- 21.4. Hi-Vis jackets for both crew members must be carried in competing cars and worn on all occasions where competitors are on the route of the rally and out of the car, except at rest halts, petrol halts and awaiting the start of selectives.**
- 21.5. Standard headlights may only be supplemented by two additional lights. All such light must extinguish on dipped beam. If additional lights are fitted, any supplementary manufacturer's lights must be removed, not just rendered inoperable.**
- 21.6. The wattage of all bulbs in forward facing lights must comply with the RTA. Any additional lights must be fitted so that their horizontal centre-line is not above the top of the original manufacturer's headlights.**
- 21.7. Under-body protection for vehicles is permitted.**
- 21.8. Competition brake linings/pads are permitted.**
- 21.9. Roll cages where fitted, must blend in with the appearance of the vehicle.**

21.10. Full safety harnesses are ~~not~~ mandatory for all competing cars. (as per Navigation Trial regulations) but are recommended. These can be of four point 'Clubman' type or the quick release 'Aircraft' harnesses. The wearing of helmets for selectives is mandatory for any car with a roll cage, whether half cage or full cage. Helmets must be removed on completion of a selective and before emerging onto the public highway.

21.11. Suspension may be altered, providing that mounting points remain as standard.

21.12. Suspension systems which use remote reservoirs are not permitted in the Endurance Class.

21.13. Limited Slip Differentials are not permitted in the Endurance Class.

21.14. Wheels are free but must not extend beyond the periphery of the bodywork. In an attempt to keep costs down and to encourage the use of standard cars, no control tyre is specified. However, the use of tyres marked "For competition use only", "For Rally use", or "For Rally use only" is prohibited. Any competitor who is in any doubt about eligibility of their tyres should contact the organisers before entering. This rule will be strictly enforced, in order to prevent damage to the private roads over which selectives take place. Scrutineers may, at their discretion, exclude cars using tyres likely to damage private roads over which the event is being held.

21.15. Turbo charged cars are not permitted.

21.16. Four wheel drive cars are not permitted.

21.17. All vehicles must present in a manufacturer's original colour scheme subject to a maximum of two colours (excluding vinyl roof where applicable) or single colour if original colour scheme changed by re-spraying.

21.18. Vehicles are not permitted to carry sign writing stickers or competition numbers except numbers supplied by the Organisers (see Art. 12).

21.19. Noise – every effort should be made to reduce noise to a minimum. It is a responsibility of the Clerk of the Course to ensure that:

- a) the necessary equipment is available**
- b) the required noise tests are carried out and**
- c) the appropriate penalties are applied.**

21.20. Exhaust system - the permitted noise level measured at 45 degrees to the exhaust and 0.5 metres from the exhaust may be no more than 100 db(A) at 3500 rpm (2500 for diesel engines) (App. 2, Art. 9).

21.21. Induction – Carburettors must have filters fitted.

21.22. All Endurance Trials must have a noise test at pre-event scrutineering, at rest halts and at the finish. In addition, the CoC shall have the discretion to include a noise test at any other point he thinks appropriate.

21.23. A competitor who fails the noise test must be refused permission to start or be excluded if the noise level cannot be brought within the prescribed limits.

21.24. Route instructions may be handed out prior to the car having gone through scrutiny, but under no circumstances will a car failing to pass scrutiny be allowed to start the event.

21.25. The Vehicle Licensing Certificate or Registration book must be produced as evidence of compliance with engine size. In the event of a protest concerning a cars eligibility, the organisers may request further documentation / information.

21.26. A Scrutiny Record will be issued to all drivers. This card must be produced at scrutiny for each subsequent event. Failure to produce the card may result in start refusal.

22. OFFICIALS.

22.1. The Clerk of the Course, appointed by the organising club, should ideally be an experienced competitor. If he/she does not have experience of Endurance events, he/she should have access to someone who has experience of competing on Endurance type events.

23. STEWARD.

23.1. The appointed Motorsport Ireland Steward must drive a minimum of two competitive sections of the route, checking the following:

23.2. The actual distances of the competitive sections.

23.3. The actual time allowed, as per the Time Card/Route card.

23.4. The accuracy of the marshals' watches. The result of this checks is to be appended to the Steward's Report.

23.5. The appointed Steward must also inspect the letters issued by the organising club, in relation to both the residents along the route and to the Gardai.

23.6. The appointed Steward must also check the use of 'NO' boards. 'NO' boards are to be used to prevent competitors leaving the intended route, where to do so might caused annoyance / disruption to residents.

23.7. Where an event receives a negative comment from the appointed Steward regarding the route and timing, then the next event run by the promoting club/s will be required to have the route and timing inspected and approved by the appointed Steward for the next event. Such inspection to be carried out at least two weeks prior to the proposed date of the event.

24. PUBLIC RELATIONS.

24.1. Residents and other interested parties on and adjacent to the route who are likely to be disturbed or inconvenienced must be notified in advance about the event.

24.2. All houses along the route and fringe roads must be visited (National Primaries excluded).

24.3. Ideally, residents should be spoken to but at the very least, a PR notice must be delivered at each house.

24.4. All Garda Stations in the area of the route or parts through which the route passes are to be advised, in writing, of the event at least one week prior to the event.

24.5. 'NO' boards are to be used by the Organisers in sensitive areas.

Competitors must not enter an area protected by a 'NO' board. Organisers must place a 'NO' so that competitors can turn in safety.

24.6. The CoC is required to satisfy the Steward that the foregoing has been complied with.

25. PROTESTS.

Protests must be made within 30 minutes of the posting of provisional results and must be in accordance with MI regulations. provisional results will be available shortly after the finish.

26. ENDURANCE TRIALS RECOMMENDATION TO CLUBS.

As this is a new discipline, the following recommendations are made in order to ensure:

a) smooth running of the event,

**b) minimum inconvenience to other road users and residents and
c) respect for those land owners willing to allow their property to be used.**

26.1. Entry fees should be standardised, to comply with any Championship Regulations, should a championship be run.

26.2. In an attempt to encourage novices / beginners, clubs should organise classes for those crews entering an Endurance Trial for the first time and should have a beginner's award. Excessively rough roads should not be used.

26.3. Caution boards should be used where necessary. Canal banks, or anything as dangerous, even on private ground, should not be used at all.

26.4. As there is no competitive navigation on roads open to the public, and no requirement to plot the route, all route cards may be issued at the same time.

26.5. Out of bounds and 'NO' boards should be used solely to avoid PR problems. They should not be used to define the route; Vias, even if unmanned, should be used instead.

26.6 There should be rest halts at appropriate intervals.

26.7. Every effort should be made to arrange petrol en route and at the finish. The distance to the nearest available petrol station to the finish, and its location, should be given in the Final Instructions, as some crews travel long distances to compete. It is illegal and inadvisable to carry fuel in cans in the car.

26.8. Instruction sheets should be issued to marshals and it should be ensured that they know how to find their Time Points, Controls etc. Marshals should not have to rely on poor photocopies of maps to reach their destinations. They should be provided with the information and given sufficient time to drive to the next time point when they close their current one. A sweeper car, as distinct from a mechanical assistance vehicle, should traverse the route after the last car. Marshals should be given a copy of the entire route.

26.9. An official car must traverse the entire route approximately 15 minutes before the first competitor's car.

26.10. All clubs should keep a list of marshals who attend their events and second copy to other clubs who request such information.

26.11. Competitors should be encouraged to introduce at least one marshal each, to ensure the continuance of the sport.

26.12. To encourage marshals, clubs should give a Marshal's Award at the end of the event.

26.13. The event should be planned so that the majority of marshals can get to the finish in time for refreshments etc.

26.14. It is strongly recommended that proper sheltered accommodation be provided for mechanical scrutineering at all Endurance Trial events.

26.15. An official course car must visit all points approximately 15 minutes before the due time of the car number one, completing a time card en route and checking that marshals are in position and their watches are set to the correct time. This time card must be available for inspection at the conclusion of the event.

27. TECHNICAL REGULATIONS FOR ENDURANCE SPECIFICATION CARS.

27.1. An Endurance Specification car is a fundamentally standard car under 1400cc.

27.2. All cars and their components e.g. engine numbers must conform to the Vehicle Licensing Certificate / Registration Book and to the RTA.

27.3. Cars must be in completely standard condition except for the specified modifications detailed in these regulations. All other modifications are prohibited and will be penalised up to exclusion from the event. All components and equipment and every measurement and dimension must conform precisely to the manufacturer's published standard specification for the particular model of car entered.

27.4. Entrants must supply the Organisers with any vehicle documentation as required. Every part or component of the car must be a standard production item identifiable as the manufacturer's listed and numbered part or an equivalent generic or 'spurious' part obtainable in the normal course from normal motor factors, except where alternative components are specifically permitted by these regulations. In the case of generic or spurious parts, the onus will be on the competitor to demonstrate that no performance advantage accrues.

27.5. No standard part may be machined, lightened or polished unless specifically permitted by these regulations.

Competing cars must have:

27.6. Four point seat belts, to at least 'Clubman' specification (i.e. Aircraft type buckles not mandatory). Roll cages are acceptable but not mandatory – this is to allow competitors to participate in events in the U.K., where the higher average speed means that roll cages are mandatory.

27.7. Front windscreen of laminated glass.

27.8. Mud-flaps for all four wheels.

27.9. Reflective red warning triangle, first aid kit, tow rope and SOS/OK board.

Bodywork:

27.10. Cars must have bodywork that represents the manufacturer's original profile, as in standard or manufacturer's optional extra form.

27.11. All bodywork must be of the material provided as standard by the car manufacturer.

27.12. Front and rear bumpers must be retained and be of the same material and dimensions as those fitted by the manufacturer. The fitting of additional wheel arch extensions is prohibited.

27.13. Cars may not be lightened from the manufacturer's standard production weight.

27.14. Strengthening of the bodyshell is permitted.

27.15. De-mountable strut brace/s may be fitted.

27.16. Detachable sump-guards, transmission, fuel tank and silencing system protection plates may be fitted.

27.17. Bonnet, door and rear door / hatch locks may be changed and additional catches may be fitted.

27.18. In the interests of safety, self locking door mechanisms should be disabled.

27.19. Sun-roofs must be taped over to the satisfaction of the scrutineer.

Interior:

27.20. All major internal trim must remain as originally supplied by the manufacturer. The exceptions are: a) full harness belts must be fitted b) the steering wheel may be replaced c) the front seats may be replaced

- d) rear seats may have their backs folded down and securely fastened (or cut only where necessary to allow the fitting of a roll cage or seat belts)**
- e) parcel shelves may be removed**
- f) trim and carpets behind the rear seats in the boot space may be removed**
- g) inside door panels may be re-shaped to allow fitting of roll cage door bars or substituted by an alternative panel from a model variant**
- h) safety air-bags may be removed or disabled**
- i) additional instruments, switches and controls may be fitted providing the lay-out of the original components is not changed**
- j) interior accessories may be added to improve comfort, convenience or safety, provided they do not affect the performance of the car**
- k) the glass area of the car must not be rendered opaque except for the sun-strip area.**

Engine and transmissions:

27.21. The engine must in all respects conform to that originally fitted by the manufacturer for the model of car.

27.22. No part may be machined, balanced, lightened, polished or otherwise modified in any way except for a service re-ground crankshaft and / or cylinder re-bore which does not exceed 1.5 mm (60 thou) or does not exceed the engine capacity class by more than 2.5 %.

27.23. Engine and gearbox mountings may be modified or replaced, provided there is no alteration to the engine or gearbox or their position within the car.

27.24. Additional engine braces are allowed, provided they utilise existing attachment points on the engine and a strengthening plate may be attached to the base of the sump-pan.

27.25. Dry sump lubrication is not permitted.

27.26. Forced induction is not permitted.

27.27. Carburettor engines may have only standard maximum two carburettor chokes (two single or one double).

27.28. Fuel injection engines must retain the standard injection system complete with plenum chambers and throttle body unmodified.

27.29. Air intake trunking, to the air filter, is free. Air filters and elements are free, but must be fitted to ensure that the vehicle complies with the noise regulations for Navigation Trials.

27.30 All component parts of the gearbox and transmissions must remain as standard for the model of car entered and be unmodified, except the clutch friction material which is free.

27.31. The use of a limited-slip or torquebiasing differential is prohibited.

Exhaust system:

27.32. The original exhaust manifold must be retained as standard but the dimensions and routing of the exhaust system after the exit from the manifold is free, provided any originally fitted catalytic converter is retained.

27.33. Additional straps and brackets may be fitted to the exhaust system.

27.34. Noise levels must comply with the regulations for Navigation Trials, as described above.

Electrical system:

27.35. The wiring loom and ignition and engine management system may be modified.

27.36. The battery may be changed and its mounting strengthened but its position must remain as standard.

28. INFORMATION.
