

Navigation Trial Classes

The Navigation Trial season is fast approaching and the Motor Club are gearing up for that all important kick off – the navigation classes! If you have a motor sport interest of any kind the Navigation Trials are the best form of obtaining the correct ‘foundation’ to this sport. The scheduled classes will cover the full range of topics including map reading, timing, car regulations and pace notes for stages rallies.

The classes will start on Friday 2nd September at 8pm sharp in the excellent facilities of the Sean Mac Diarmada complex in Threemile House. All interested persons should contact Fintan Clerkin 087 2297024 and register your position on the classes. Registration on the night will also include club membership, maps, romer and all necessary paperwork to complete the 6 week course.

The first event after the summer break is the October Trial on Saturday 1st. COC for the event is Donal McArdle and we look forward to this.
